Kenny, if the results are with Mike and he is extremely busy, can you please contact the lab and get the results directly from the lab to send to EPA. I am getting questions on my end about the results. Thank you.

Kim - the results are emailed to Mike Alvidrez and he then forwards them to CCDC. I have left Mike a message asking for the 8-11-2017 source and distribution results as soon as he receives them. Mike is also extremely busy with our daily source samples and other required sampling and he is also assisting us through this current emergency.

I hope to hear from Mike soon regarding the reports.

It is after hours but we will contact Halls if they do not arrive soon.

Thanks - kb
